

# Paper log books are going away. Are you ready?

The new ELD mandate means that all commercial motor carriers have to replace paper-based log books with Electronic Logging Devices (ELDs). Make the change with Verizon and see what devices we have to make the transition easier.

Make the switch to ELDs with Verizon and get up to a \$200 discount off any 4G LTE tablet when you purchase and activate one with an ELD compliance package from 1.1.18 to 3.31.18.

## \$200

### Verizon Connect bundle features:

- An ELD-compliant, hours-of-service app with driver alerts, back-office alerts and summary reporting
- Over-the-air, ELD updates
- Map-view vehicle tracking with satellite replays
- Vehicle usage and maintenance reporting and dashboards
- Near real-time alerts about vehicle usage, including time and location, idling, speeding, safety and more
- Verizon Connect hardware and installation
- ELD-focused onboarding assistance
- Web-based driver training
